## About Me

- I am in the final year of my Bachelor's in Computer Applications (BCA), specializing in full-stack development. I have hands-on experience with React.js, Django, Django REST Framework, and database management. I am also proficient in HTML, CSS, JavaScript, and Python.
- My expertise in these areas allows me to approach projects with confidence and deliver high-quality results. I have a strong belief in the value of continuous learning and staying adaptable in the ever-evolving world of information technology.
- I actively seek out opportunities to expand my knowledge and skills, embracing new technologies and approaches. Feel free to explore my work and get in touch if you have any questions or opportunities to collaborate.
- I am open to collaborations, freelance work, and exciting opportunities in the web development and tech industry. Feel free to explore my projects or reach out to me for any discussions.
